

Details of our standard models

To support your sales for fire wood in small quantities we offer you our special made Jute bag with an inner PE – lamination.

The bag has a load-bearing capacity of 15 – 18 kg for pieces of wood of the size 25 cm and 33 cm. A welcome alternative to cardboard boxes!

We keep this bag (unprinted) on stock in boxes of 50pcs.

On customer demand we have the possibility to print the bags with your logo.
